WORK EXPERIENCE

React Frontend Developer — Innovins Technologies | Mumbai, MH *Nov 2025 – Jul 2026*

- Built responsive UI components and admin panels in React.js/Next.js/Tailwind CSS, integrating REST APIs across multiple core modules.
- Improved page performance and fixed UI/UX defects, resulting in noticeably faster load times and a smoother user experience.
- Collaborated closely with designers and backend engineers in an Agile sprint cycle, consistently shipping features on schedule.

Full Stack Developer — Yuva Nexus Technologies | Pune, MH *Jun 2024 – Nov 2025*

- Developed production-ready web applications using Next.js, React.js, and Tailwind CSS for multiple client projects.
- Built admin panels and integrated APIs for dynamic data handling, significantly reducing manual content-update effort.
- Converted Figma designs into pixel-perfect, responsive interfaces across multiple pages and screens.
- Built reusable component library, reducing duplicate UI code and speeding up new feature delivery.

PROJECTS

OneFusion — Multi-Service Lifestyle & Travel Platform Live Link

Next.js, React.js, Tailwind CSS, Axios, REST API, Node.js, Express.js

- Built the frontend of a multi-service platform, creating responsive, reusable UI components for events, travel, accommodation, transportation, wellness, fitness, healthcare, and merchandise.
- Implemented navigation, service pages, forms, authentication UI, responsive layouts, and API-integrated interfaces.
- Improved page performance to a 90+ performance score through component optimization, image optimization, lazy loading, and efficient rendering.

Job Portal Web Application Live Link

Next.js, React.js, Tailwind CSS, Node.js, Express.js, MongoDB

- Built a full-stack job portal with separate user and admin roles, using JWT authentication and protected routes.
- Designed RESTful APIs (Node.js, Express.js, MongoDB) for users, job postings, and applications.
- Built an admin dashboard to create, edit, and delete jobs, users, and applications in real time.

Wellness Forever — Corporate Website Live Link

Next.js, React.js, Tailwind CSS, Axios, CMS Integration

- Built a responsive corporate website spanning 7 sections: Home, Leadership, Network, Franchise, Investor, Careers, and Contact.
- Integrated a CMS via Axios REST APIs, letting non-technical staff update site content without a redeploy.
- Built an admin dashboard for content management, connecting live CMS data to the frontend seamlessly.
